SOCIALISM AND CUPIDITY

According to figures just released by Tax Foundation, Inc., the per capita burden of federal, state and local taxes was \$109 in 1940, \$269 in 1950 and \$715 in 1960.

In virtually all state and local governments, no less than the federal government, proposals are advanced for more and more tax revenue. Unless the people restrain their demands on government, and put their foot down on unnecessary government expenditures that carry favor with pressure groups, Karl Marx's plan "to wrest all capital from the bourgeoisie," may become a reality in the United States.

If socialism engulfs our country, it will be due to the cupidity of people who think they can get something for nothing from government.

THE STORY OF "SPREAD"

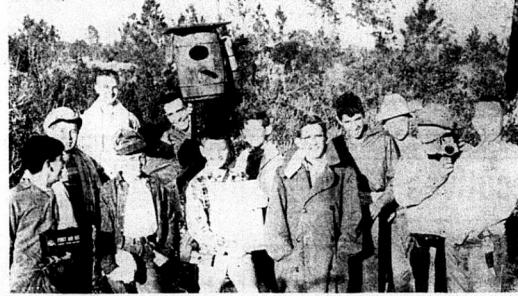

At regular intervals the question of "spread"—which is the difference between what the farmer gets for his crops and what the consumer pays at the grocery store—becomes a subject of heated discussion. At present, the farmer gets 40 per cent of the customer's food dollar, and numbers of people think there is something rotten in Denmark.

Sylvia Porter, the well-known financial columnist, dealt with the spread problem recently in an interview with a leading authority on food processing and distribution. "Actually, the spread is remarkably low," he said, "in view of the rapid increase in rates for wages, taxes and transportation. These are the cost factors which make up most of the spread. Moreover, the services for which the spread pays are a tribute to America's mass production and mass distribution system. Without 'price spread' your steak would be another steer on a western range, macaroni would be durum wheat in the Dakota plains, cheese would be milk in a Wisconsin farmer's pail. Without spread the farmer would be virtually out of business."

In addition, the day has long since passed when consumers bought almost all foods in a raw or nearly raw state. The demand for foods with "built-in maid service" grows heavier all the time. And the processing, packaging, freezing and other techniques involved in meeting this demand mean more labor, warehousing, transportation and other costs.

The authority interviewed brought up another point. The government's Retail Food Price Index is a combined measure of grocery store prices plus restaurant prices. The restaurant part of the index has increased 18 per cent since January, 1953; the grocery store part has remained stable. The intense competition in food retailing—which holds the profits of major chains to as little as one cent on the dollar, guarantees top value for the food budget.

Without our system of mass production and mass retailing it is anybody's guess what the consumer would pay for food and other necessities which he enjoys in such abundance.

Uncle Dan From Democrat River

Dear Mister Editor:

"We got a new fellor in our neighborhood and I think he's going to fit right good. Me and Ed Doolittle went over to see him the other night and he was telling us he's got a sure fire trick to get rid of fleas. I thought to do the same, he said, was to get a ferret and leave some sacks of cement outdoors. Claimed he had a half inch to the sack. We're mighty glad to get this fellor over here. Now if we can get someone to furnish the cement, we'll be the crows practice ally laid by."

A whole bunch of wimmen folks was calling on this fellor's wife when we were there. Come to think of it, allowed how he was the only dirt farmer to ever break the sound barrier: claims he got two words in edge wise while talking to the wimmen.

Me and Ed could've given this fellor a heap of good advice on how to git along out here, but he talked like he'd been around some hisself. As in most com-

munities, the people out here with the narrowest minds has the widest mouths. I'm trying to keep away from neighborhood fusses. I've found out that it's a heap easier to stay out than git in. Of course, secretly they've got a few scattered around out here that they'd break a leg. To rater it was their neck. But I just keep these tender sentiments to myself.

I was noting the papers this week a couple of important scientific items. A professor from the University of North Carolina named Dr. Crittenden says the typical mountaineer has disappeared from the mountains in this country. I ain't surprised to hear this scientific fact. Them mountaineers has been migrating for years to radio stations to sing hillbilly songs. I reckon radio finally got 'em all. If professor Crittenden will start a movement to get 'em back to the hills, I'll do all I can to help.

Well, we're still here, but from a fellor named Dr. Gans of London who claims the 2,400-year-old habit of doctors examining the patient's tongue is a complete waste of time. For most of my life the standard examination has been to take your temperature, count your pulse, thump your stomach, and look at your tongue. When he got through he could tell whether you were well, ill, or dead.

He didn't say nothing about this new discovery by Dr. Gans.

As a matter of fact, Mister Editor, I ain't surprised at nothing no more. As far as I'm concerned, they can take the examination right out of the English language.

Yours truly,
Uncle Dan

In a Dark Garden by Frank G. Slaughter-While this is not classified as a novel, the story is most appropriate for this centennial year. One hundred years ago, the terrible Civil War began. In the pages of this splendid novel relive those momentous times with the gallant southern officer-sergeon and his suspected union wife. Very good reading.

The Nickel Pirates by Nicholas Monsarrat, author of "The Cruel Sea" and "The Ship that Died in the Night," is an armchair story teller's pace and precision. This is indeed an adventure on the high seas, exciting, shocking and most revealing it goes behind the alluring advertisements to show what can actually take place in the lounges and suites of a

Seventh Day Adventist

Temperance Commitment Day Held

Temperance Commitment Day, a day when Seventh-Day Adventists renew their historical position of total abstinence from alcohol and tobacco, was held by the Belle Glade Adventist church Saturday, February 25, and by fellow church members around the world.

Dr. George R. Ritter, Temperance Commissioner, invited church members to join the American Temperance Society during the morning service.

Adventists have taken the position, the American Temperance Society excepted, that the only final alternative and scientific solution known for alcoholism is total abstinence. No one is baptized or admitted into church fellowship who smokes or drinks.

The W. S. C. S. met at the church Monday evening with Mrs. G. S. Hemphill presiding. Mrs. Lester Gerry gave the devotional. Following a short business session Mrs. Hemphill assisted by Mrs. A. B. Mathis, presiding, gave the prayer for the Lord's Prayer.

Those attending were Mrs. N. Di Stefano, Mrs. Frank Robertson, Mrs. J. F. Royal, Mrs. H. D. Merriam and Mrs. W. C. Prentiss.

Scout Troop 621 Has Busy Weekend

Boy Scout Troop No. 621 sponsored by the Everglades Presbyterian Church, enjoyed action packed camping trip on February 24th and 25th, at Camp Sudbrook, Ft. Drum, Florida.

The Troop in conjunction with other Scout Troops in the Glades District planted orange trees throughout the camp area. Troop No. 625 of Indianola and Troop No. 620 of Clewiston, participated in Troop 621's campfire on Friday night. Games were played and skits were put on by the scouts and everyone thoroughly enjoyed themselves.

Saturday morning passed very quickly. General camp chores and the planting of orange trees took up most of the time. Saturday afternoon began with a Rattlesnake Derby. The five foot rattler ended the competition and now the trophy of a proud scout.

The Scouts then left for a tour of McArthur's Dairy. The plant was inspected by the boys who were impressed by the whole operation.

Those attending the outing included Scoutmasters: Dr. C. E. Haines and Dr. F. H. Thomas and Troop Committee Chairman: M. E. Ludlow. Senior Patrol

Leader, Marilyn Felsina headed up the following patrols: Woodman Patrol, Chet Ruff and Mike Wilson, Corbra Patrol; Dr. Smith, Jim Ludlow and Bobby Kunkel, Gator Patrol; Eddie Haines, Larry Keeslar, Gene Hollingsworth, and Keith Yelvington, Flaming Arrow Patrol; Dick Willits and Bud Goodbread.

Services will be held at Temple Beth Shalom Friday evening at 8:30 with Jack Stateman presiding with special services conducted for Purim. The holida

day of Purim will be celebrated Sunday, March 5 at 4 p. m. at the Temple.

The holiday takes its name from the word purim, meaning lots. Long ago, when the Persians gained dominion over the land of Judea, the Persians, swayed by a wicked prime minister, Haman, agreed to destroy all the Jews in his vast domain. Having been warned that all enemies of the Jews had in the past been destroyed, the Persians, being superstitious, decided to cast lots to determine the most favorable day for the slaughter. The lots indicated that day to be the thirteenth day of the month of Adar.

Haman, of course, could not have foreseen that these lots would furnish a name for his intended victims' most joyous festival. It happened that before the lots were cast, the prophet, Mordecai, Queen Esther's cousin, induced her to intercede for her people. By her plea to the king, the Jews were saved.

Accordingly, the Jews ordained that they and their children should keep two days of Purim every year, throughout every generation, and that the day of Purim should not be blotted out of the memory of the Jews. Ever since then, Jews all over the world have celebrated Purim each year.

It will be presented by the Children's acting guild of the Glades and a talent show will follow. After the entertainment the traditional dinner of Purim will be served.

Rams Upset Stuart 54-46

One of the hottest games of the season was played Friday night at the stadium when the fighting Belle Glade Rams topped the Stuart Tigers 54-46. Mr. McIver visited briefly in Belle Glade Tuesday, reporting they were "simply amazed" at the growth and development of the area.

McIver now live in Rockledge, Florida, where Mr. McIver, a retired citrus grower, devotes his time to city affairs as city and port commissioner. Living here in Belle Glade's early days, the McIver took over the third quarter, and things looked bad for Belle Glade as they were behind 31-21 at the close of the third quarter. Coach Marquess then told the Rams how to do the job and they took back control, although the lead was around during the fourth quarter.

"It's a beatiful spot now. I just can't believe it," Mr. McIver commented. "The sheriff came out every night to investigate a killing in colored town and we were growing up. The sheriff was around during the day."

"It's a beatiful spot now. I just can't believe it," Mr. McIver concluded, as he bought a HERALD to send to his daughter.

In three consecutive games, Stuart defeated Seacrest, Lake Worth (first in the conference) and Riviera.

Today's finer drugs cost you no more than 30 years ago

The far more effective drugs of 1960 actually take a little less out of your health dollar than they did 50 years ago. In 1930, 20¢ out of the dollar spent for health purposes went for drugs and sundries compared to 19% in 1958.

This proves again that today's prescriptions are your bigger health value.

Hawks Girls Team Has 15-2 Record

Larry G. Williams
Based At Ft. Jackson

Recruit Larry G. Williams, son of Mr. and Mrs. Albert J. Williams, 1101 S. O. Box 161, South Bend, Ind., is currently assigned to Company C, 1st Battalion, 1st Training Regiment of the U. S. Army Training Center, Infantry, at Fort Jackson, S. C. where he is undergoing eight weeks of Basic Cavalry Training.

He has been taught rifleman's marksmanship under the U. S. Army's Trainfire program which enables the modern soldier to become a better rifleman in less time than previous methods. In this program, most of his training has been done in hitting targets at pop-up targets at unknown distances on terrain which duplicates combat areas.

Other highlights of his intensive training include squad tactics, bayonet combat, hand-to-hand combat, and crawling the infiltration course while machine gun fire is popping overhead.

During his seventh week of training, he will live in the field under conditions similar to those in the forward areas of a battle zone.

He will return to this first phase of training, he will march with his battalion in a review before the commanding general of Ft. Jackson. This ceremony is witnessed by relatives and friends.

His training will be completed on the "open house" held by each company on graduation day.
